

How Bulgarians Rate Other Countries on Development
Module 2

1. We would like you to think about development in different countries around the world today. We'll be talking about countries as varied as Japan and Mongolia. Think of a development scale that rates countries from zero to ten. The least developed places in the world are rated zero and the most developed places in the world are rated ten. You can use both of those numbers for rating countries plus all of the numbers in between. **HAND DEVELOPMENT SCALE SHOWCARD TO RESPONDENT IF THIS IS A FACE-TO-FACE INTERVIEW.**
