- 8. DON'T KNOW

A5. Would you say that at the present time business conditions are better or worse than they were a year ago?

- 1. BETTER NOW
- 3. ABOUT THE SAME
- 5. WORSE NOW

A6. During the last few months, have you heard of any favorable or unfavorable changes in business conditions?

YES

NO; HAVEN'T HEARD

GO TO A7

A6a. What did you hear? (Have you heard of any other favorable or unfavorable changes in business conditions?)

IF NOT CLEAR WHETHER A CHANGE IS FAVORABLE OR UNFAVORABLE, PROBE: "Would (MENTION CHANGE) be favorable or unfavorable?" AND NOTE "FAVORABLE" OR "UNFAVORABLE."

A7. And how about a year from now, do you expect that in the country as a whole business conditions will be better, or worse than they are at present, or just about the same?

1. BETTER A YEAR FROM NOW

3. ABOUT THE SAME

5. WORSE A YEAR FROM NOW

- A8. Looking ahead, which would you say is more likely--that in the country as a whole we'll have continuous good times during the next 5 years or so, or that we will have periods of widespread unemployment or depression, or what?

IF R ANSWERS IN COMPARATIVE TERMS, I.E., "BETTER," "WORSE," OR "SAME," PROBE: "Would that be good times or bad times?"

- A9. As to the economic policy of the government--I mean steps taken to fight inflation or unemployment--would you say the government is doing a good job, only fair, or a poor job?

1. GOOD JOB

3. ONLY FAIR

5. POOR JOB

8. DON'T KNOW

- A10. How about people out of work during the coming 12 months--do you think that there will be more unemployment than now, about the same, or less?

1. MORE UNEMPLOYMENT

3. ABOUT THE SAME

5. LESS UNEMPLOYMENT

- A11. No one can say for sure, but what do you think will happen to interest rates for borrowing money during the next 12 months--will they go up, stay the same, or go down?

A28. The next few questions ask about your views of the chances that various events will happen. Your answers can range from zero to one hundred, where zero means there is absolutely no chance, and one hundred means that it is absolutely certain. For example, when weather forecasters report the chance of rain, a number like 20 percent means "a small chance", a number around 50 percent means "a pretty even chance," and a number like 80 percent means "a very good chance."

A28a. What do you think the chances are that your (family) income will increase by more than the rate of inflation during the next five years or so?

1. GONE UP

3. SAME

5. GONE DOWN

A29. The next question is about investing in the stock market. Please think about the type of mutual fund known as a diversified stock fund. This type of mutual fund holds stock in many different companies engaged in a wide variety of business activities. Suppose that tomorrow someone were to invest one thousand dollars in such a mutual fund. Please think about how much money this investment would be worth one year from now.

What do you think is the percent chance that this one thousand dollar investment will increase in value in the year ahead, so that it is worth more than one thousand dollars one year from now?

_____PERCENT CHANCE

A29a. Next I would like to ask you about your OWN (personal) income prospects in the next twelve months. What do you think is the percent chance that your income in the next twelve months will be higher than your income in the past twelve months?

D60. Now, please think about what life is like today in a country where income is low, most people live in rural areas, access to healthcare is poor, and most couples give birth to at least six children. Suppose that country introduces a smaller-family-size program to encourage couples to give birth to no more than three children. I will read a list of things this smaller-family-size program might change. For each one, please tell me whether it will increase in that country or decrease in that country once the smaller-family-size program has been successfully implemented.

In such a country where most couples give birth to at least six children, over time, will a successful implementation of a smaller-family-size program increase or decrease the overall standard of living?

R2. We are carrying out a new study with RAND, a research organization that is working with us. The study is concerned with how American households respond to major events in their lives and public policy changes. The interviews will be conducted over the Internet rather than by telephone. We would like your permission to allow RAND to contact you for the new study. This is completely voluntary. When they contact you, you can then decide if you wish to participate or not. If you do choose to participate, RAND will pay you twenty dollars up front. After that you will receive ten dollars for every fifteen minutes of the interview that you complete.

Is it okay for us to give RAND your name, address, telephone number, and e-mail address, if you have one, along with your gender, age, education, income, race or ethnicity, and marital status so they can contact you? All your information will remain confidential.
